Golden ratio face calculator photo

Score Your Face - The Math behind the Beauty - Golden ratio beauty calculator Use "Golden Ratio Face" to show how beautiful or ugly someone is. Golden Ratio Face uses facial symmetry, facial structure, and the golden ratio to calculate the beauty of anyone. It is scientifically proven that we are more attracted to people with a symmetrical face and facial features. A symmetrical face usually show that we are healthy and strong to potential mates. Use this app to tell how symmetrical your facial features and facial structure are. To determine your golden ratio face, you would need to do 2 simple steps: 1. Make or upload picture2. Press the button and see the result for your face: ♦ Perfect face : score >=9 ♦ Beautiful face : 7.5
